Henry of Navarre.

Some Interesting Gossip About the Great Horse and His Last Fast Race.

It is now the impression among horse men that if Clifford starts in the race with Henry of Navarre, Domino, and Rey el Santa Anita to-morrow-and it is pretty generally believed that he willhe is likely to beat the trio.

Clifford was never in as good shape as he is now, and it is said he has shown greater speed- lately than ever before. Orlando Jones, of this city, who saw the defeat of game Sir Walter on Saturday, is credited with declaring that a horse never went through the stretch at Sheepshead as fast as Clifford did in that race, and other around various parts of the country for good judges of race horses and speed say the past four or five years. He has won the same thing. some fair victories, though none of them

It is, of course, but natural that each of the eminent turfmen who have horses in this very interesting event feels pretty sure that he has named the winner, but the popular belief among horsemen here, as elsewhere, as stated in The Times yester-day, seemed to be that Henry of Navarre would win.

The naming of Clifford, however, with the stories of the greatness of his per Brown are to be the chief figures, while in the other Sailer Jim Brown and Pat formance on Saturday, seems to have turned many admirers of the Belmont Raedy may appear.

The other day a paragraph appeared in these columns to the effect that Pat Raedy crack all around, and made them extremely dubious as to his ability to beat the Rose

In fact, while Domino's great sprinting qualities are not forgotten, and it is like-wise borne in mind that Rey el Santa Peckham in ted rounds, but to at Peckham, upon being informed of Pat's proposition, bad shown no disposition to accept it. It now turns out that Peckham was averse to such a meeting because it would have Anita is not to be overlooked in any com pany, the prevailing feeling now seems to be that the struggle will narrow down to Navarre and Clifford, and that it is a toss-up as to which will land first.

> To-day a race is to be run at Sheepshead Bay that will interest every lover of the run ning horse in the country. It is that for the Flatbosh stakes. The distance is seven furlongs and some of the most fame year-olds in the land will try for it. Among these will be Requital, winner of the fu turity: Crescendo, the great California colt; Ben Brush and One I Love. Hastings and Handspring are also entered for this

> race, but neither will start. This will be the first chance the Western colt. Ben Brush, has had to go against any of the really strong youngsters of the East and it will serve to test his merit, which his owners and many who have watched him closely believe to be superior to that of any other 2-year-old of the year. There are many predictions, however, that neither Requital, Brush or Crescendo will be in this race if One I Love is berself and goes

to the post.

This clever filly is credited with having worked three quarters of a mile around the turn at Sheepshead the other day in the quick time of 1:14 1-4, a performance that is looked upon as quite good enough to set the wisest of the oracles to guessing whether any of the cracks can cope with her.

The subject of a race under the old con ditions, with a high-wheel sulky on an elliptical track, to beat the record of Maud S. 2:08 3-4, is again up. It has been up regularly for the past five years, but tempt has been made up to this time to equal or outdo the famous old mare's per ormance.

It is now suggested that Azote is the horse capable of doing the trick, and it may be that he will shortly be started to try it. A turf expert says that Azote is comm believed to be faster than either Alix or Nancy Hanks, although he has yet to beat their records, and his enormous size and power, together with his peculiarly easy gait, fit him to bandle the heavy, vibrating old-style sulky with less drawback than almost any other horse that could be named.

Clubs and parties of riders from Boston Providence, New York and many other arge cities have sent word that they will be here, while the surrounding towns and the country is looked to for a great out-

pouring of bicycle enthusiasts.

The talk of a special race in which all of the big professionals are to be pitted against Johnson is liable to be brought to a

hend to-day.

Johnson is willing to take chances against any of the riders who may be named against him, and has offered to make the affair a sweepstakes race for \$500 or all, but there seems to be opposition to this kind of a contest by the element here that is opposed to betting, and it is probable that if the men meet they will do so for a

Things Foreign.

The memoirs of Prince Stanislas Pontaowski, now in course of publication, will be of unusual interest. The Prince was orn in Poland in 1754. He was a nephew of King Stanislas Augustus Poniatowski, om the favor of Catherine the Great secured the throne of Poland. During the sixty six years of his life the author of these nemoirs witnessed many things. Contem porary of Louis XV, Frederick the Great, Maria Theresa, Catherine of Russia, and of Napoleon, his birth gave him access to a great number of illustrious persons. His rapid notes are full of interest and unknown dotes. Prince Stanislas took an active part in the events which preceded the last struggle of Poland for independence. After the partition, he went to St. Petersburg, where he saw the great Catherine for the ast time. He says of her: "The general idea of the Empress is very different from the reality. Her conversation was simple, natural and highly instructive. A stranger would have taken her for the wife of a burgomaster, or some rich and enlightened merchant, and such it pleased her to be at times when she saw in it no inconveniences from quitting her great role. The only moments when she showed the autocratic spirit were when she spoke of her empire; then she became gradually carried away. And, indeed, was she not speaking of one fifth of the globe?" At the top of a house at the Rue des

Saints Peres, in Paris, M. Koch, a pro-

lessor of the university, nephew of Mme. Drouet, who, as will be well remembered was the interpreter of "Lucrece Borgia." and later one of the most intimate friends of Victor Hugo, has established a little memorial museum, furnished with objects once belonging to the great man. Bespect is due to the sincerity of M. Koch's enthusiasm, but what a singular Victor Hugo one discovers in this sanctuary. Among other things one notes by the side of objects collected on the field of Waterloo during the genesis of "Les Miserables," pebbles Miss Londonderry, the Boston cyclist, who from Jersey, an assortment of goose quill has been on a trip around the world, since pens, a dirty cap, an old leather portfolio and no one knows what beside. All these and leaves that place for Oblicago to-day She is to complete her task in fifteen months. It is a fact must travel at least 1,000 infles on a that even at a time when he was far from being deified, Victor Hugo distributed is relies with a certificate of genuineness Pebbles from Jersey generally bore a large signature in ink, with the date. And he wrote: "I attest having traveled 600 leagues with this bag, which contained the manuscript of 'Les Miserables.' oom contains a table of the style of Louis XIII. covered with plate glass, under which in letters of large dimensions, is this in-scription: "I present to Mme. Drouet this table on which I wrote 'La Legende des Siecles.' Victor Hugo, Jersey, August 16, A1859." The owner of the table relates hat, one day, a new servant took a sponge with the intent of "cleaning" the table, and was prevented by the entrance of one of the family. A workman, called in haste, placed the glass, thus protecting the in-scription from future danger. It is almost to be regretted, for the sake of Hugo's rested. The table would have remained an authentic souvenir of a masterpiece-happily! But why should the deformities of a great man be set in relief?

avs He Will Win the Pennant Sure and That Baltimore Must Dig for Second Place.

(Special to The Times.) Baltimore, Sept. 10.-"It was hard luck that beat us out of the gaple yesterday," aid Tebeau this morning. "Expect to wir it? Of course, I did. Why not? We

would have won it, too, if it had not been

for that error of Blake's. But accidents will happen, and I'm not kicking, "We now have an up-and-up game with these fellows here, and to-day we play the rubber. We may get the worst of it again, but I don't think we will. In fact, I'm more confident of winning to-day than I was yesterday, and I thought we had a cinch on that.
"But there's no telling about these things.

As far as winning the pennant goes, we're out for it. I believe Cleveland has as good if not a better ball team than any other town in the League. One thing is sure—they are as game a lot of men as ever were gotten together, and they play ball until the last man is out. There are no fainthearted citizens among the Spiders.
"Of course, if we lose again to-day, it will make it all the barder for us to pull in

the flag, but I believe we can do it at that.
"I don't expect to lose a game when we 'get West again, while you men are liable to fall down a good many times. If you do it's all day with you.

"I'm not just sure who will be sent in to pitch to-day. It depends on circumstance: whether it will be Cuppy or somebody else Wisson and Blake have been sent home. This cripples us, of course, but I can best you fellows to-day anyhow. George Tebeau will play right in Blake's place. "What makes me think you will lose the

pennant? Why, the good things ahead of us and the tough nuts you will have to crack. We have been through our tightest places and we can crawl up on you in the next two weeks of the season. Yes, we're almost sure to win the pennant and you fellows will

have to dig for second place. "That talk of President Hart about the League not permitting the Temple cup series is another version of the story of what the fox said about the grapes. In his attempted argument against the Temple cup series Mr. Hart argues powerfully in favor of it, for he points out how fiercely all have played and what an unaccedent-edly close race it has been, and he admits that the men have played the game so hard largely for a slice of the good things in the Temple cup series. The series will be played all right, and if Cleveland comes to the front or is second, with Baltimore first, there will be no trouble about an adjustment of division of proceeds."

The League games played yesterday resulted as follows:
Baltimore, 4; Cleveland, 1.
Pittsburg, 9; Washington, 1.
